## Review of DOL YouthBuild WIOA Performance and Timing of Outcomes

1/29/2019

Moderator(s): [Jenn Smith](#)

Speaker(s): Kurt von Stetten

After the launch of the WIOA performance reporting in early 2018, YouthBuild grantees have been diligently collecting and submitting WIOA outcome data. DOL and the MIS Help Desk have aggregated these reports and calculated WIOA outcomes for Program Years 2016 and 2017. This webinar presented the first information on the current WIOA grant class outcomes for these two years of aggregated data.

This webinar reviewed the WIOA performance calendar as a way to understand current WIOA outcomes, identify early challenges, and focus on TA to support stronger outcomes.

Participants were given performance updates and system demonstrations aimed at giving grantee staff tools for:

- Understanding current national YouthBuild WIOA performance;
- Understanding the WIOA performance calendar and when grant performance data becomes realized; and
- Having tools and strategies for reviewing their own performance and making corrections, as needed.
